## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2, 4-8, 11-16 and 20-32 are rejected under 35 U.S.C. 102(b) as being anticipated Zintz et al., U.S. 4,185,652.

Regarding claims 2, 4-8, 11-15 and 20-31, Zintz et al discloses in figure 4 well tool devices (161-165 and 169) controllable by a unique pressure (col. 7), control lines (151,152,183,212), a decoder having main valves (201-205) responsive to a control line (151) and a control line (152) in hydraulic communication with the tool, all of the decoders each having an accumulator (213), a filling valve (214) and accumulator valve (216), range bias springs (197), a crossover (211) between decoders .

Claims 37, 39 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Purkis, 6,567,013.

Regarding claims 37, 39 and 40, Purkis discloses in figure 4 decoders (158-170), first line (C) second line (D) crossovers (A and B) serving to change the lines from pilot to command.

***Allowable Subject Matter***

Claims 3, 9, 16-19, 32 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
